Received from the restaurant after I sent them an email . . . We are definitely pet friendly. Our patio is always open, but it is not heated. There is a portion that is semi enclosed. We would love to hang out with the yorkie!

BRC Gastropub is the city's newest restaurant to feature a dog-friendly patio. The pub will also have disposable water bowls and treats, along with a planned puppy menu from Chef Lance Fegen. BRC joins 18 other Houston establishments that actively welcome (and are licensed to welcome, more importantly) pups on their patios.
